Unlimited Solutions in communication and Security Applications

Thanks to the advantages of the IP system,
We offer a high-quality image and sound system
Regardless of the number of apartments

BP-OS0B6 7" Door Panel

Features

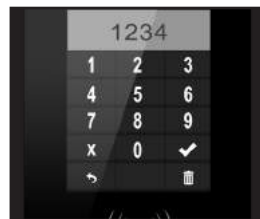

- 7" Main Exterior Door Station (48V)
- High resolution night vision camera
- Standard TCP/IP
- Visual angle 110°
- 7" LCD with easy-to-use interface
- Card reader with IC card support
- Search from the name list
- Face recognition and detection
- 2mp camera
- Conversation with mobile phone via cloud
- Timed password enforcement

Door relay;

Normal - **closed** / Normal - **open**

Face Recognition Feature

7" LCD Touch Screen

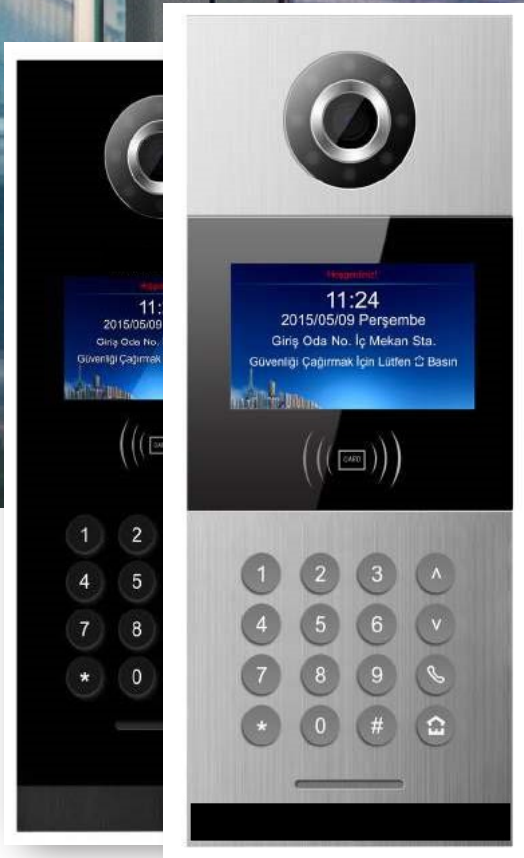

IC Card, Password and
QR code support

Remote phone access feature

BP-OS0B2-IC/BGD-4KB24 4,3" Door Panel

Features

- 4.3 " Main Outer Door Station (24V)
- High resolution night vision camera
- Standard TCP/IP
- Visual angle 110°
- 4.3" LCD with easy-to-use interface
- Card reader with IC card support
- IP54 protection against dust and liquid

Door relay;

Normal - **closed** / Normal - **open**

Handy Keypad

4.3" LCD Screen and IC reader

Easy montage

BTV-VS0B2-IC-24 /BGD-VKP Villa Door Panel

Features

Villa Outer Door Station (24V)

High resolution night vision camera

Standard TCP/IP

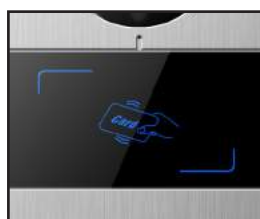

Visual angle 110°

IC card support

One-touch security search

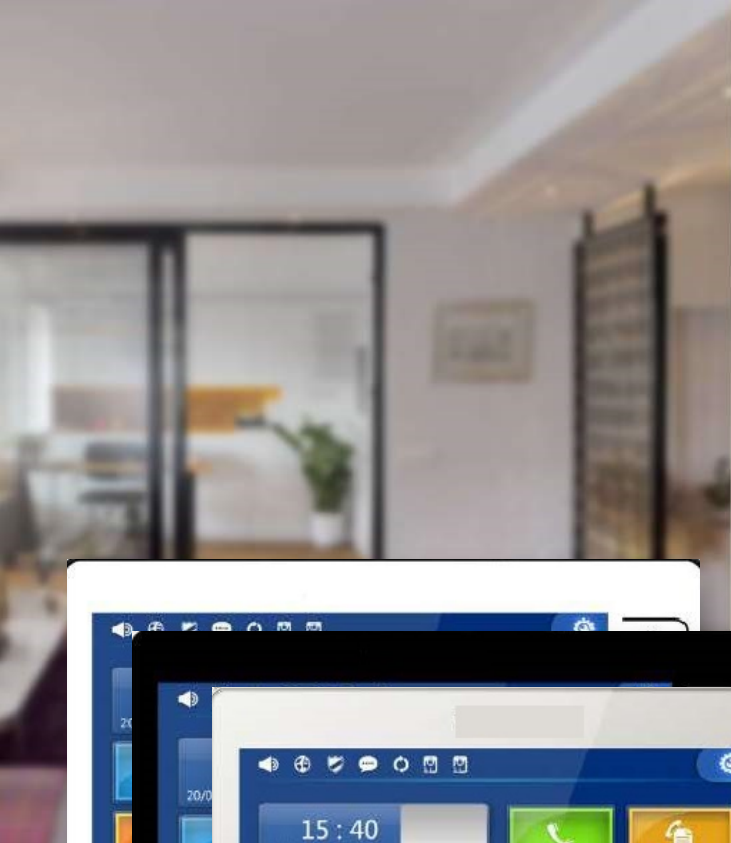

CMOS Camera

IC Card Reader

Stylish design

B7-ISB11 7" Indoor Station

Features

- 24V standard PoE
- Automatic visitor photo save
- Unlimited and data lossless calls between apartments
- Sending an emergency notification to security
- 8 different types of alarm support (Notification to Addressed Security)
- Multi-language option
- Multiple ring option
- Easy to use interface
- Storing alarm and call logs
- Receiving images and texts from the management
- Automation support

Sensitive touch key function

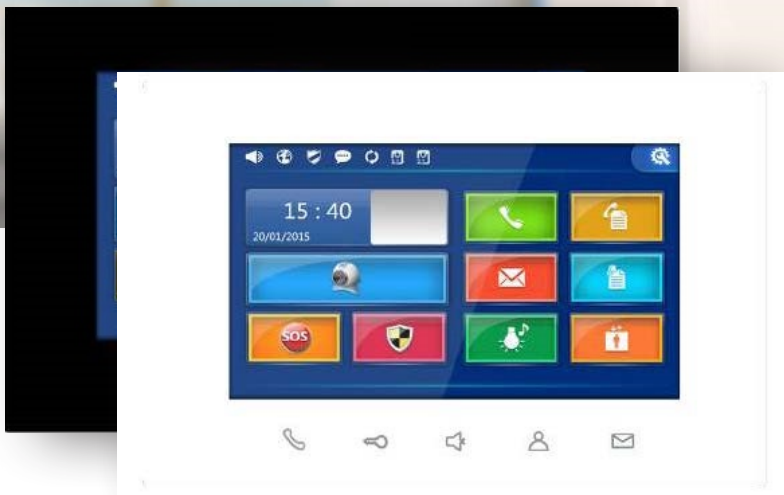

Touch screen feature

Easy montage

B7 - ISOB7 7" Indoor Station

Features

- 24V standard PoE
- Automatic visitor photo save
- Unlimited and data lossless calls between apartments
- Sending an emergency notification to security
- 8 different types of alarm support (Notification to Addressed Security)
- Multi-language option
- Multiple ring option
- Easy to use interface
- Storing alarm and call logs
- Receiving images and texts from the management
- Automation support

BGD - GUB10 10.1" Guard Station

Features

10.1" Security Unit Standard TCP / IP Resolution 1024 * 600

10.1" capacitive touchscreen

Connection of up to 255 IP cameras

card management system

Alarm and help information processing

Call to all system units

Emergency unlocking

10" LCD Screen

Stylish design

Handy keypad

Connectors

Product Code Features

BGD - AIPB

Elevator Control Module Operating Voltage 24+5V RS485 communication distance 100 meters

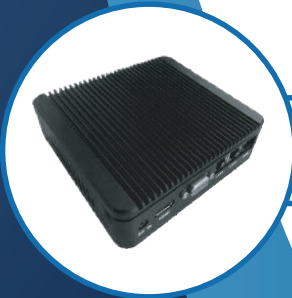

BGD - P424B/48

4 + 2 Port PoE Switch 24V / 48V

BGD - P824B/488

+ 2 Port PoE Switch 48V

BGD - BWPC

Security Software Module Linux operating system 256 pcs. IP camera Integrated

B-CR01B

Provide access with card and password. 100% TCP IP. 24V

Automation System

It's time to make your home smart

Smart Home Smart Choice

We offer comfort and safety at an affordable price with its easy to use and advanced technology.

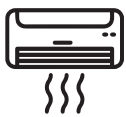

4 or 8 Channel Main Module

- 4 or 8 channel relay unit
- With the wifi feature, Managed from IOS and ANDROID-based products
- Scenario support is given.(I'm at home, I'm out, Kids, Vacation mode)
- Management either from the Key , indoor intercom panel or mobile phone is provided.
[Additional modules can be added as needed.]
- The relay unit can be used both as a curtain module and as a relay module.

Air Conditioning Unit

- Wall mounted room thermostat unit
- Used with central relay unit.[Cannot be used alone]
- It detects the temperature in the environment and according to the value coming from the system, It ensures the operation of boiler or air conditioner.
- Thermostat unit is not only for boiler control,
It can be used in climate control when your air conditioner has the appropriate thermostat input.
